

Annual Report of Institutional Progress
University Libraries
University of Georgia
1997-98

1. Summary of Major Accomplishments

Library Collections. Due to strong support from the University Administration, the Library Materials Budget grew at a rate greater than inflation and we were able to regain some lost ground. The Libraries added over 80,000 volumes.

Core Services. While considerable attention is paid to new electronic services and outside interest is often focused on our rare books and special collections, it should be pointed out that the Libraries' core services still revolve around the acquisition, organization, and circulation of printed books and journals. Library staff continue to attain greater efficiency in these core services, such as processing, cataloging, circulation, and shelving of books.

Equipment for Public Use. Again, due to the strong increase in the Library Materials Budget, the Libraries were able to allocate \$100,000 for the purchase of computer workstations and other equipment for use by students and faculty in accessing the increasing variety of electronic information resources provided by the Libraries.

Resources to Support Research. Graduate Tuition Funds were used to purchase extensive computer readable backfiles of *Biological Abstracts* and *Psychological Abstracts*. These files will be loaded into new web based versions available through GALILEO. In addition, access has been provided to the *Web of Science*, a web based service that provides access to large runs of *Science Citation Index*, *Social Sciences Citation Index*, and *Arts & Humanities Citation Index*.

Map Library Catalog. Through GALILEO, the Libraries secured \$150,000 in state funds to convert the card catalog for our Map Library to machine readable form. We have the tenth largest map library in the country, so it is especially important that we convert these records and make them available through our online catalog and through the OCLC international database.

Literature Databases. Using GALILEO funding, we mounted *The Oxford English Dictionary* and five large literary databases of primary literary texts.

New Library System. Working with other library directors in the University System, the Vice Chancellor for Academic Affairs, and the Vice President for Academic Affairs, we were able to secure \$10M in funding over 3 years to replace all the local automated library systems in use by University System institutions with a common software package. The combined new system will replace GALIN at UGA and will allow greatly improved sharing of resources among libraries in the University System. *Endeavor*, a commercial computer system, has been selected for this purpose and will be implemented to replace GALIN over the next three years.

Student Wage Budget. Due to strong support from the University Administration, we were able to increase our student wage budget to cover the latest increase in the minimum wage. Without this increase, basic library services would have suffered.

New Peabody Position. Through re-allocation, a new librarian position to work with the Peabody Awards Archive was created.

New Associate University Librarians. As part of the ongoing re-organization of the library, we have hired two very strong people. Merryll Penson started as the Associate University Librarian for Public Services on September 1, 1997 and Barbara Winters will begin as the Associate University Librarian for Collection Services on August 17, 1998. With excellent people in these two positions, the Libraries will surely prosper.

Reorganization of Libraries. Following a self-study two years ago, the Libraries formulated a new organizational structure. The broad outline of this new structure is now in place and changes at the departmental level are also being implemented. For example, the management of the Main and Science Reference Services have been consolidated to provide more coordination, collaboration and consistency in service. Also, the Government Documents Department has been reorganized to improve long term access and use of the government documents collections.

Digital Library Efforts. A new department was formed to focus on the digitization of images, manuscripts, and books from our collections. Through GALILEO, we were also able to add a staff position to work on these efforts.

Purchase of Equipment for Staff. Through further redirection of salary savings, considerable additional equipment has been purchased for use by the staff. Most notably, we have ordered over 200 high-end Pentium workstations with seventeen inch monitors. These machines are critical to staff productivity and morale because so much of the work we do involves Web based resources and graphical user interfaces.

Equipment Budget. Through reorganization of several senior positions, salary funds have been redirected toward a recurring budget line for the purchase of computer equipment for staff use. These funds should help us keep pace with advances in information technology.

Renovation of Main Library. A \$4.2M project to renovate the heating, ventilation, and air conditioning systems in the 1953 portion of the Main Library has been funded and will begin over the summer of 1998. This is a complex project that will take about three years. Libraries staff are to be commended for organizing the shifting of material, people, and services required for this project.

Student Learning Center. A significant feature of this proposed building will be a large Electronic Teaching Library. Funds have been appropriated to plan this new

building and library staff have been meeting with architects to begin the programming process.

Special Collections Building. Planning continues for this building which will house our three major special collections. An architect was retained to prepare preliminary sketches that we can use for fund raising purposes. While the building is high on the campus list at a cost of about \$28M, we must raise a major portion of the cost privately. Substantial progress has been made on this front.

Development. The Libraries continue to make substantial progress in fund raising. This past year, commitments and collections totaling over \$2M have been received.

Communication. The *Insider*, a newsprint insert for the *Red & Black*, describing basic library services was produced as a trial issue for Winter Quarter. Plans are to publish it again Fall Semester and Winter Semester. A faculty newsletter has also been initiated and it will be sent to faculty twice each year.

Grants Received. The following grants were received by the Libraries:

National Endowment for the Humanities Preservation and Access:	\$ 96,590
To preserve and catalog almost 1000 television programs in the Peabody Collection that focus on African-American history and culture.	
National Endowment for the Arts Heritage and Preservation:	\$ 5,000
For the Georgia Folklore Collection folk music field tapes restoration project	
Georgia Council for the Arts Folklife Program:	\$ 5,000
For the Georgia Folklore Collection folk music field tapes restoration project	

Growth in Media Department. Collections and services in the Media Department have shown remarkable growth. Highlights include:

- Use of materials housed in the Media Department increased by over 50% to 8,275.
- The WSB Newsfilm Collection was transferred from OISD to the Media Department this past year. This collection encompasses 5 million feet of newsfilm dating from 1949 to 1981.
- The Peabody Award Archive grew by 1,300 entries.
- With these and other additions, the Media Archives and Peabody Collection now contains 88,000 radio and television titles, making it the fourth largest broadcasting archive in the country.

2. Progress in Strategic Planning

Goals Attained

- **Refine and advance the plan for new library space.** A three staged approach to securing new space for the Libraries is in place. The first stage is to provide needed additional seating in the Electronic Teaching Library component of the new Student Learning Center. Funding for the planning of this building has been allocated for FY99. The second stage will be to construct a Special Collections building. This project is now 4th on the campus list of building priorities and a major fund raising effort is well underway. The third stage is an addition to the Science Library and this project is also now on the campus list of building priorities.
- **Investigate a new automated library system to replace GALIN, preferably as part of an effort that will cover all the libraries in the University System.** As part of a Systemwide effort, a commercial system has been selected and will be implemented at all University System libraries over the next three years.
- **Coordinate the renovation of the heating, ventilation and air conditioning systems of the older part of the Main Library.** Contracts for this three year project have been finalized and work will begin in August 1998.
- **Establish budget for staff equipment through redirection.** A recurring line for the purchase of equipment for staff has been established.
- **Establish a budget for student/faculty workstations.** Given our increased reliance on electronic information resources, funds have been redirected from the Library Materials Budget to purchase computer workstations that can access these information resources.
- **Establish a program to create and support digital texts, especially in the Humanities.** A new department has been established to create digital texts and images. This department has been named CHIPS (for Computer, Hardware, Imaging, and Preservation Services) and it has made great strides in creating new digital resources.
- **Continue the internal study and reorganization of the Libraries.** Efforts to reorganize for greater efficiency have resulted in the consolidation of several departments and service points.
- **Recruit an Associate University Librarian for Collection Services.** This position has been filled effective August 17, 1998.

New or Revised Goals

- **Library Materials Budget.** Due to budget constraints, the budget for the purchase of library materials has not been increased for FY99. Through judicious reallocation, we will be able to squeak by without canceling journals. However, subscription prices continue to increase by between 12% to 15% per year and an increase will be needed in FY2000 if we are to avoid cancellations. Further, overall we have lost considerable purchasing power since FY90. An increase on the order of \$2M is needed to restore the Library Materials budget to that level.
- **Media Preservation.** An increase in the Libraries budget that would be directed toward preservation of at least those programs that are unique would be an investment in the future. Otherwise, much of the material recorded on video tape will deteriorate and disappear over the next five to ten years.
- **Implement New Integrated Library System.** Growing out of the success of GALILEO is a new effort in the University System that will provide a common integrated library system for all 34 libraries. Funding for the first year of this three year project has been approved and a system has been selected. Now, we must begin to implement that system. UGA is scheduled for implementation during FY2000, but planning has already begun.
- **Develop a Means to Recover Costs for Public Printing.** Public workstations in the Libraries provide students, faculty, and the public with a means to print documents from GALILEO and other resources on the Internet. At this time, no charge is levied for this printing. This past year, over 5 million sheets of paper were used in this activity. Even at the most conservative estimate, this represents a cost of about \$100,000. The Libraries will work with University Computing and Networking Services to arrive at a moderately priced way to recover some of the costs associated with public printing that will be analogous to charging for photocopying.
- **Redesign Libraries' Web Site.** Given the importance of resources on the Web, the redesign of the Libraries Web site is critical because it is becoming, in many ways, a third library facility whose appearance and presentation is as important as the Main Library or the Science Library. Efforts will be focused on bringing as much information together in one place as possible with an efficient and understandable interface. The newly hired GALILEO Director of Virtual Library Development will be instrumental in these efforts and UGA will assist wherever possible in the development of a shared Virtual Library for the University System.
- **Digital Library.** The Libraries will also invest increasingly in the development of a digital library of historical resources. Efforts are underway to secure outside funding for several projects, including the scanning of all Georgia newspapers, the development of a digital collection of important Georgia historical documents, and the conversion to electronic form of the 100 most important books in Georgia history. Again, cooperation with other libraries, especially within the University System, will be critical.

- **Electronic Journals.** Over the next year or so, it will become possible to provide electronic versions of between 2,000 and 3,000 scholarly journals, primarily in the Sciences. The emerging pricing model for these electronic journals calls for a surcharge of between 3% and 4% above the print version. Planning is needed to determine how to pay this surcharge and then how to offer these journals in a uniform, coherent manner.
- **Continue to Advance Planning for New Library Space.** Efforts here will be focused on three areas:
 - *Student Learning Center.* Funding has been approved to begin planning the Student Learning Center. A portion of this building will house an Electronic Teaching Library, a facility that will provide electronic resources tailored to the curricular needs of undergraduates. My staff and I will be heavily involved in planning this facility.
 - *Special Collections Building.* Planning and fund raising for this proposed building that will house the Hargrett Rare Books and Manuscripts Library, the Richard B. Russell Library, and the Peabody Archive will continue and realize significant success.
 - *Library Repository.* At the current rate of growth, the repository will be full in about seven years. It should be kept in mind that the Repository was intended as a temporary solution. The proposed Special Collections Building would have a permanent Repository attached to it. Planning must continue to anticipate and meet the need for more shelving space.
- **Controlling the High Cost of Journals.** The single biggest problem facing research libraries today is the high and escalating costs of journals. Ten years of increases averaging 12% per year have ravaged budgets, reduced our ability to purchase books, and cut into our ability to use technology. Alternative means of publishing need to be explored and exploited. Efforts are underway in the Association of Research Libraries, in the AAU, and in NASULGC to determine if there might be a more economical and more efficient way to report research. Supporting these efforts may take the redirection of some funding within the Libraries' budget and understanding from the faculty and administration. However, the return on the investment could be significant.
- **Continue Library Reorganization and Improvement.** Now that all senior positions in the Libraries have been filled, we will see accelerated improvements in organization and efficiency.

3. Progress in assessing unit/area effectiveness

A. New or Revised Outcomes

- **Improved Measures in Basic Services** – As mentioned above, while great attention has been paid to new electronic resources, the basic core services relating to maintaining a large print-based library collection must continue. Indeed, more books and journals are being printed every year. Every measure we have indicates that we are acquiring and cataloging books more efficiently than ever and that the re-shelving of books is also more efficient than ever. This is a result of seeking to improve wherever we possibly can and also of ensuring that adequate staff and resources are allocated to these basic services.
- **Continued Shift in Database Usage** – The use of databases offered by the Libraries offers a vital measure of effectiveness. In the past, this has involved counting the number of searches conducted in databases mounted on GALIN, the local library system. Searching continues to shift from GALIN to GALILEO. After years of significant increases in searching activity, searching in GALIN has actually dropped off as databases and user preference shift to GALILEO:

UGA Searches	FY95	FY96	FY97	FY98
GALIN	1,384,859	1,327,646	964,076	701,079
GALILEO	N/A	137,177	387,642	772,892
FULL TEXT ARTICLES	N/A	74,482	119,080	156,000

The last row in this table counts the number of full text articles retrieved from GALILEO and shows a significant increase.

- **Interlibrary Lending** – The number of items lent to other libraries as opposed to the number of items is an indication of the value of our collection to other libraries and of the relative need of our faculty and students to seek materials from other libraries. Overall, the UGA Libraries lend four times as many items as we borrow. Within the University System, the ratio is six to one. These figures indicate a strong collection.

B. Implementation of New Methods

- **Balancing Print and Electronic Resources** – Libraries everywhere are faced with the problem of steady-state budgets and a proliferation of publications, both print and electronic. Every year, there is more information available yet the budget to acquire the information has not increased and indeed has decreased when adjusted for inflation. Further, academic libraries face a changing role in that funding that was historically used to purchase printed books and journals is being re-directed to acquire campus-wide licenses that permit access to resources on the Internet. For example, the University Libraries provide campus-wide licenses that permit access to many Internet resources, including *Encyclopedia Britannica*, *The Web of Science*, *Project Muse* (electronic journals from Johns Hopkins University Press), and *JSTOR*, an

archive of digitized periodicals. Little new funding has been provided for these resources and yet the Libraries have managed to provide them while at the same time the number of print volumes added each year and the number of journal subscriptions has not significantly declined. This is a strong measure of effectiveness that can be explained by the following factors:

- Judicious cancellation of expensive items;
- Support from the University Administration that has allowed purchasing power to remain somewhat constant over the past five years;
- Leveraging system-wide funding through GALILEO for electronic services that benefit all University System students and faculty;
- Participation in other consortia of research libraries to leverage bargaining and negotiating power.

Anyone who compares the electronic resources we offer today compared to what we offered just three years ago will marvel at how far we have come. The fact that we have done this without major increases to the library materials budget, beyond some inflationary support, speaks to the talents of our staff and to the willingness of libraries to cooperate for the greater good.

C. Changes Made in Programs or Processes

The following actions all derive from the assessment activities mentioned above:

- Care has been taken not to short-change core services for print based resources, such as re-shelving books, in a period when enthusiasm for electronic information may distract us from these basic services.
- Given the user preference for GALILEO and for web-based services, we are working to migrate databases from GALIN to GALILEO.
- More and more information is available electronically while at the same time the volume of material published in print continues to increase. Experience has shown that it is possible to balance print and electronic resources, especially through cooperation with other libraries. We have sought out means to cooperate whenever possible.

D. Evidence of Improvement

- Use of our print collections remains steady, despite the increasing availability of electronic resources. We have taken steps to insure that core print-based services, like re-shelving books, continue to be adequately funded and all measures indicate that we have been successful.
- Use of electronic resources continues to increase. Students and faculty are conducting more database searches and retrieving more full-text articles every month. This indicates that our investment in electronic resources was a wise one.
- The fact that we are able to offer a strong combination of print and electronic information shows that our ability to provide and to support both types of information has improved.

4. Overall health of the Libraries

The following factors will affect the overall health of the Libraries and need to be monitored closely. (These are essentially the same concerns that were listed last year.)

- *Space.* Space will continue to be a critical factor. While we are fortunate to have a solid, three-pronged plan in place, we still need to monitor developments in technology to ensure that we are moving in the right direction. Warehousing technology especially may provide more economical means to store printed materials in the near future.
- *Cost of books, journals, and electronic resources.* More and more electronic resources are being published every year. However, despite this and despite the general impression that print is a fading medium, more books are being published every year. At the same time, the cost of journals continues to escalate at rates above 10% per year and electronic means of publishing do not yet provide any relief from these increasing costs. The result is that all academic and research libraries, including those such as Georgia that have enjoyed relatively strong support, are able to purchase less and less every year of an expanding body of printed publications while at the same time trying to keep pace with an exploding volume of electronic resources.
- *Salaries.* According to the most recent survey of the 110 academic library members of the Association of Research Libraries, the median salary for librarians at the University of Georgia has fallen from 81st in FY97 to 88th in FY98. This was largely due to the retirement of several more highly paid library administrators, but it does reverse a trend of improvement over the past few years. It should be pointed out that the overall ranking for the Libraries is 30th out of these same 110 institutions in the ARL membership index. It is doubtful that any other unit on campus that ranks this high among its peers would also rank so low in median salaries compared to the same peer group. Additional attention to salaries would be welcome before market pressure begins to hamper recruitment and retention. The same applies to staff salaries as well as librarians.
- *Information Technology.* All libraries are increasingly reliant upon information technology and we have been very successful in providing new electronic resources. This has largely been accomplished through reallocation and through one-time funds. As with the rest of the campus, information technology in the Libraries needs more focused and secure funding.

5. Individual Accomplishments

Benjamin, Virginia. Appointed to Advisory Board, *Computer Review*.

- _____. Member Georgia Web Group.
- _____. Chair, Technology Expo'98 planning committee.

Bensman, Beth A. Served as Administrative Assistant for Society of Georgia Archivists.

- _____. Served on Membership Committee, SGA.
- _____. Consultant. Anthropology Department, University of Georgia. Resource contact for Foxfire Project. Team-taught two classes for students 1) Arrangement and Description of materials and 2) Care of historical materials (with Pam Hackbart-Dean).
- _____. Served on Libraries Faculty Professional Development Committee.
- _____. Recipient of Libraries Contract Staff Rookie of the Year Asset Award.

Britton, Deanna. Editorial Review Board of *Educational Libraries*

- _____. Review of *The Virtual Campus: Technology and Reform in Higher Education* by Gerald Van Dusen. *Education Libraries*. Volume 21, No. 3, 1997, p. 29.
- _____. Review of *From Discipline to Development: Rethinking Student Conduct in Higher Education* by Michael Donnells. *Education Libraries*. Volume 21, No. 3, 1997, p. 34.
- _____. Review of *Academic Controversy: Enriching College Instruction through Intellectual Conflict* by David W. Johnson. For publication in *Education Libraries*.
- _____. Review of *Sexuality Education in Postsecondary and Professional Training Settings* by James W. Maddock. For publication in *Education Libraries*.
- _____. Review of *How the Family Influences Children's Academic Achievement* by Sheri Fong Lam. For publication in *Education Libraries*.
- _____. Presentation. "Live Links: Selecting Relevant WWW Resources for Faculty and Students in the Social Sciences," at Tech Expo '98, The University of Georgia.

Brooks, Sonya. "Live Links: Selecting Relevant WWW Resources for Faculty and Students in the Social Sciences," at Tech Expo '98, The University of Georgia.

Brown, Steven. Member of Libraries Faculty Promotion Committee

- _____. Member of Electronic Hand-Held Media Committee
- _____. Member of Science Library Renovation Committee
- _____. Attended Customer Service Excellence, 1998 LAMA Institute, Greensboro, NC
- _____. Attended Arches/Outlook Express, UGA Staff Training & Development

Buss, Carla. ACRL Committee Intern.

- _____. Member, Public Service Team for Graduate Students.

Campbell, John. Moderator, "Archiving business Reference Sources." ALA, 1998.

- _____. Chair, Public Service Team on Collection Development.
- _____. Member, Public Service Team of Reference Services Organization.
- _____. Chair, ALA Business Reference Sources Committee.

Cohen, Nadine. Member, PS Team on Graduate Students.

- _____. Member, Disability Services Advisory Committee on Library Services.

Colombo, Claire. Coordinator, HVAC Renovation Project.

- _____. Member, Faculty Promotions Committee.

- _____. Member, Ergonomics Committee.
- _____. Member, Systems Development Group.
- _____. Member, Copernicus Planning Committee (USG).
- _____. Chair, Circulation Functional Committee (USG).
- _____. Member, Universal Borrowing Committee (USG).
- _____. Member, Interlibrary Use Committee (ARCHES).
- _____. Member, Universal Borrowing Committee (USG).
- _____. Member, Interlibrary Use Committee (ARCHE).
- _____. Member-at-large, Buildings and Equipment Section (BES) Executive Committee/LAMA/ALA.

Cooksey, Liz. American Libraries Association, ACRL Science & Technology, Extended Campus Libraries, and University Libraries Sections.

- _____. Special Libraries Association, Solo Librarians Division.
- _____. IAMSLIC.
- _____. SAIL.
- _____. Georgia Library Association, Chair, Reference Services Interest Group.

Coscarelli, William F. Chair of the Resource Sharing & Collection Development Committee of the Music Library Association, 1997-_____. Coordinator of the Organ Music Round Table of the Music Library Association, 1997-

Curtis, Susan. "Government Relations Update," *Biofeedback* 23 (1-4). 1997. Quarterly Column

- _____. UGA Libraries ASSET Award: Librarian of the Year.
- _____. Member, Faculty Advisory Board.
- _____. Chair, Public Service Team on Organization of Reference Services.
- _____. Member, Systems Development Group.
- _____. Chair, Government Relations Committee, Biomedical and Life Sciences Division, Special Libraries Association.
- _____. Member, Systems Development Group.
- _____. Chair, Government Relations Committee, Biomedical and Life Sciences Division, Special Libraries Association.

Cutshall, Tom. "GALILEO Training", Northeast Georgia Regional Library System
Clarkesville, GA, March, 1998.

- _____. "How to Research Using GALILEO" TechExpo, Athens, May, 1998.
- _____. Member, ASSET Awards Committee.
- _____. Member, Public Service Team on Bibliographic Instruction.
- _____. Member, Public Service Team on Organization of Reference Services.
- _____. Chair, Committee on Professional Development.
- _____. Member, SLA Program Planning Committee for Biomedical and Life Sciences Division.

Davidson, Josephine. American Library Association (ALA).

- _____. Map and Geography Round Table (MAGERT).
- _____. Member, Cataloging and Classification Committee (1996-1999).
- _____. Vice Chair/Chair-elect, ALCTS-CCS/MAGERT Map Cataloging Discussion .
- _____. Association for Library Collections and Technical Services (ALCTS).
- _____. Media Resources Committee .
- _____. Consultant, 1998 Tour Committee.
- _____. Online Audiovisual Catalogers (OLAC).
- _____. Member, 1998 Conference Scholarship Committee.

Issues (1997): 163-176.

- _____. “Voice in the Middle: Civil Rights Cartoons of Clifford “ *Georgia Historical Quarterly*. (Fall 1997): 735-749.
- _____. “Comic Relief: The Cartoon Collection as Archival Documentation” (Paper delivered to the Society of American Archivists, Chicago, Illinois, August 28, 1997).
- _____. Editor and contributor. *Selected Readings in Preservation*. Society of American Archivists Preservation Section. 1993-1996.
- _____. Served on Steering Committee, Congressional Papers Roundtable, SAA, and chaired Program Committee of CPR.
- _____. Served on Steering Committee and Nominating Committee of Manuscripts Repositories Section, SAA.
- _____. Co-chair of Education Committee, Preservation Section, SAA..
- _____. Served as President and Past President of Society of Georgia Archivists.
- _____. Served on Education Committee, SGA.
- _____. Chair of Spring Workshop Committee, SGA.
- _____. Consultant. Callaway Foundation, Hamilton, Georgia. Visited site. Cleaned mold and dust from framed photograph and made repairs.
- _____. Consultant. Foxfire Fund, Inc., Mountain City, Georgia. Taught “Care of historical materials” class for staff at Foxfire. Conducted a site visit for preservation recommendations.
- _____. Consultant. Anthropology Department, University of Georgia. Resource contact for Foxfire

- Project. Taught two classes for students 1) Arrangement and Description of materials (with Beth Bensman) and 2) Care of historical materials. Provided information on grants.
- _____. Panelist. "Deans' Forum Conference on Teaching Georgia History" (UGA Department of History and College of Education, Athens, GA, June 9, 1998). The library provided handouts on the Cuban Missile Crisis (written notes, telephone logs and cartoons) for 8th grade teacher packets.
 - _____. Served on Electronic Access Coordinator Search Committee for Russell Library.
 - _____. Served on Faculty Advisory Board.
 - _____. Served on Faculty Governance Committee.

Hawks-Bradley, Bucilla. Professional Development Committee.

- _____. PS Team on Graduate Students.
- _____. Reference Librarian Search Committee, Chair.
- _____. Promoted from Librarian I to Librarian II.
- _____. Attended American Library Association Conference in Washington, D.C. (6/98).
- _____. Attend the OR Biennial ICPSR Meeting in Ann Arbor, MI - Oct, 1997.
- _____. Attended the Black Caucus of the America Library Association – 3rd Conference, Winston-Salem, North Carolina – July 1997 (Served on the Public Relations Committee).

Healey, Marilyn. Moderator, Computer Section, ARLIS/NA Annual Conference, 1998.

Hope, Ann. American Library Association.

- _____. Member, ALCTS/CCS Committee on Education Training and Recruitment for Cataloging.
- _____. Member, ALCTS Professional Development Committee.
- _____. CONSER Member, Policy Committee.
- _____. Copernicus/G2.
- _____. Member, Cataloging Committee.
- _____. Member, Conversion Committee.
- _____. Member, Union Catalog/Universal Borrowing Committee.
- _____. OCLC, Member, Cataloging and Database Services Advisory Committee.
- _____. Southeastern Library Association Member, Information and Technology Roundtable.
- _____. University Center in Atlanta; Member, Bibliographic Access Committee.

Howard, Molly B. Government Relations Chair, Museums, Arts, and Humanities Division, Special Libraries Association, 1997-98.

- _____. UGA Representative, Collection Development, ARCHE, 1997-98.
- _____. Libraries Coordinator, International Studies, UGA, 1997-98.

Hughes, Neil. Music OCLC Users' Group.

- _____. Continuing Education Coordinator.
- _____. Member, Executive Board.
- _____. Chair, Program Committee.
- _____. *Ex officio* Member, Reference Services Committee.
- _____. Member, 1997/98 Nominating Committee.
- _____. Music Library Association Member, Education Committee.
- _____. Music Library Association, Southeast Chapter.
- _____. Member, World Wide Web Site Editorial Committee.
- _____. Represented UGA Libraries at OCLC Institute seminar, *Knowledge Access*

- Management: Tools and Concepts for Next-Generation Catalogers* at OCLC headquarters, Dublin, Ohio, March-April 1998.
- _____. Advisor and advance reviewer, March-April 1997 for Martha Yee, Cataloging Supervisor, University of California-Los Angeles Film and Television Archive, for her paper *What is a work?*, which was presented in October 1997 in Toronto at the *International Conference on the Principles and Future Development of AACR*.
- Hurst, Anne. Member, ALA RUSA MOUSS Program Planning Committee.
- _____. Chair, Public Service Team on Bibliographic Instruction.
- _____. Member, Public Service Team on Reference Services Organization.
- _____. President Elect, Atlanta Area Bibliographic Instruction Group.
- _____. Secretary, Atlanta Area Bibliographic Instruction Group.
- _____. Member, Libraries Committee on Promotion.
- _____. Secretary, Libraries Faculty Meetings.
- Jedlicka, Beth. American Library Association New Members Round Table.
- _____. Director of Liaisons, 1997-1998.
- _____. Chair, Self-Study and Resources Allocation Committee, 1998-1999.
- _____. ALCTS Cataloging and Classification Section Intern, Policy and Research Committee, 1997-1998.
- _____. Member, Policy and Research Committee, 1998-2000.
- _____. Wrote several reviews for *Women in Libraries*, published by the American Libraries Association .
- _____. Refereed two manuscripts for LRTS.
- _____. North American Serials Interest Group.
- _____. Awarded a 1998 Horizon Scholarship.
- Kilchesty, Albert. Editor of *Big As Life: An American History of 8mm Films*, a catalog published in April 1998 by the Museum of Modern Art/San Francisco Cinematheque to complement an exhibition of the same name. Also had several films chosen for inclusion in the exhibition.
- Killens, Caroline. American Library Association.
- _____. Member, ALCTS, AS, Policy and Planning Committee.
- _____. Member, Copernicus Steering Committee.
- _____. Chair, Acquisitions Functional Committee.
- _____. Member, Copernicus Conversion Committee.
- _____. Member, Copernicus Vendor Evaluation Committee.
- _____. Georgia OCLC/SOLINET Users' Group Spring Meeting, Nov. 7, 1997, Gwinnett Tech.
- _____. Presentation with Katha Massey: "Use of OCLC's PromptCat and TechPro."
- Llewellyn, Richard. Chair, Committee on Nominations and Elections.
- _____. Member, Public Service Team on Collection Development.
- _____. Member, Staff Handbook Committee.
- _____. Co-chair, Government Information ALA-ACRL Science and Technology Section.
- _____. Member, ALA-ACRL Committee on Comparison of Science and Technology Libraries.

- Loughner, William. "Scientific and medical news on the Internet," *Issues in science and technology librarianship*. (an ACRL e-journal) <http://www.library.ucsb.edu/istl/97-fall/internet.html>. No. 16, Fall, 1997.
- _____. "The International Digital Electronic Access Library (IDEAL) from Academic Press," *Ibid.* No. 17, Spring, 1998.
- _____. NASIG.
- _____. American Libraries Association, ACRL.
- McClusky, Duncan. Co-editor, American Peanut Research Education Society *Newsletter*.
- _____. Special Libraries Association, Environment & Resource Management Division (Outstanding Member, 1997, Public Relations Chair).
- _____. USAIN (U.S. Agriculture Information Network), Legislative Committee.
- McMurry, Nan. Instructor, History 321 (History of Medicine), fall quarter 1997.
- _____. University Council representative for the Libraries, 1997-98.
- _____. Project Manager, 4th Cooperative Preservation Microfilming Project (Funded by NEH; Administered by Solinet).
- _____. Preservation Committee, ARCHE, 1997-98.
- _____. Consulting Committee, Georgia Legislative Documents (Grant-funded digitization Project administered by Solinet).
- Moehle, Paula. American Library Association.
- _____. Map & Geography Round Table (MAGERT).
