

Get References from EBSCOhost Databases in GALILEO®

EBSCOhost supplies many of the GALILEO® databases. Their search screens look similar to the ones shown here.

*A list of EBSCOhost databases follows these instructions.

Conduct your search in the EBSCOhost database of your choice. Click *Add* icon to select each citation. When done, click on *Folder has items*.

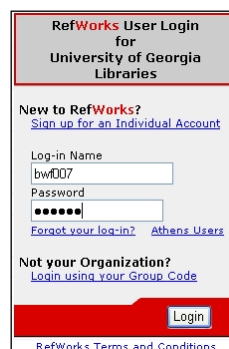

In *Select* choice, click *All*. When screen redraws, click *Export*.

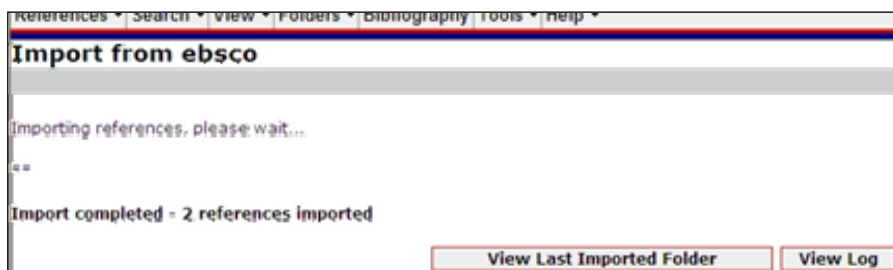

Select the radio button for *Direct Export to RefWorks* then click the *Save* button on the left side of screen.

When prompted, login to your RefWorks account.

The EBSCOhost database exports your references directly into the *Last Imported* folder in RefWorks. Click *View Last Imported Folder* to **move them** into another folder.

References in *Last Imported* will be copied to *References Not in a Folder* the next time you import. Move them to other folders.
