

Get References from WilsonWeb Databases in GALILEO®

WilsonWeb supplies some GALILEO® databases. Their search screens look similar to the ones shown here.

*A list of WilsonWeb databases follows these instructions.

Conduct your search in the H.W. Wilson database of your choice. Mark the items you want.

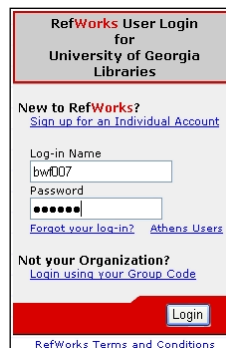

When done, click on the Exporting/Citing button in upper left of screen

In subsequent screen, click on *Export to Refworks, EndNote software*.

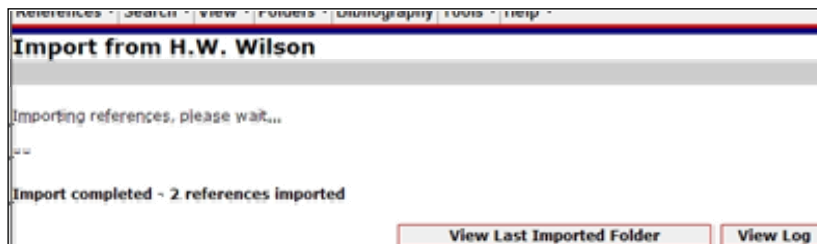

Click the *Export* button.

When prompted, login to your RefWorks account.

The WilsonWeb database exports your references directly into the *Last Imported* folder in RefWorks. Click *View Last Imported Folder* to **move them** into another folder.

References left in *Last Imported* will be copied to *References Not in a Folder* the next time you import. Move them to one of your other folders.
