UGA is in the midst of a project to launch a new finance and human resources administration system that is integrated, efficient, modern, and supports a data-driven environment. The project is called OneSource. OneSource will allow UGA to adopt leading business practices and align its systems with those used by the University System of Georgia.

This email is the first of many communications that the Libraries will send via Grapevine to keep faculty and staff up-to-date on the changes to come. The Libraries has its own OneSource team working with UGA’s Finance and Administration, Human Resources, and Payroll representatives to ensure that the Libraries’ requirements in these areas are met and that the transition goes smoothly (see attached).

What is OneSource?

- Multi-year business transformation project
- Replace many legacy administrative systems and associated business processes
- Next Generation Finance and Human Resource administrative systems and processes: Oracle PeopleSoft 9.2

Who will be impacted by OneSource?

- All faculty, staff and student employees
- Research faculty and administrative support staff
- Business, finance and human resources support staff
- Technical staff
- Vendors

What kinds of changes are coming?

All university offices that handle any type of financial transactions or human resource functions will see significant changes, including changes in procurement, payment processing, accounting, receivables, personnel processing, payroll, leave recording, budgeting, and reporting. For example, the format of their electronic pay stubs and other items currently available via the UGA Employee Self Service website will change at [http://employee.uga.edu](http://employee.uga.edu).

What are the project timelines?

- OneSource officially began in September 2015. Please see this link for detailed timeline information.
- On January 2, 2018, the budget planning system will go live.
- On July 1, 2018, the financials go live.
- On January 1, 2019, the new HR and payroll system will go live.*

*OneUSG/UGA HR and Payroll System will be run by the University System of Georgia. All 29 USG academic institutions and the university system office will be coming together under a single umbrella.

Mark your calendar for DEMO DAYS!

When: August 30-31, 2017
Where: Georgia Center
What: Sneak peek of the PeopleSoft and Hyperion systems to get an initial preview of the new system.
