Turabian Style:

Notes-Bibliography Style

Based upon Kate Turabian's *A Manual for Writers of Term Papers, Theses, and Dissertations*, 7th ed., 2007 (Copies available at Main and Science Library Reference and Reserve Desks call number LB2369 .T8 2007)

Note: Like the *Chicago Manual of Style* on which it is based, Turabian offers those in the natural and social sciences the option of using an author-date system with notes and in-text parenthetical references. See chapters 18-19 of the *Manual* for details.

Use the first note form the first time the work is cited in your paper. Use an abbreviated form for subsequent citations:

- Use *Ibid.* to show you are citing from the same source as the previous reference. If you are citing from a different page in the same source, add a page number: *Ibid.*, 68.
- If you repeat a reference after using one or more other references, use an abbreviated form: Habib, *Literary Criticism*, 201

List authors' names in the same order as they're listed on the work you're citing. If there are more than four authors, list the first author and replace the other authors' names with the abbreviation *et al.*

Authors are listed with the last name first. If a work does not have an author, start the citation with the work's title.
